KACPER BARTŁOMIEJCZAK

Junior Frontend web developer

kacperbartlomiejczak@proton.me | +48735073051 | Toruń, Poland

PROFILE SUMMARY

A motivated computer science student specializing in front-end technologies. I have practical knowledge in creating responsive websites (RWD) and a passion for building user-friendly products. I want to join a team where I can create modern web applications.

EDUCATION

Casimir the Great High School   *2019 - 2023*
- Computer Science

Nicolaus Copernicus University   *2023 - Present*
- Computer Science student

PROJECTS

To-do/Habit manager   **Github | Live**
- Developed a feature-rich task management application using React, TypeScript, and Vite.
- Implemented advanced features such as task recurrence (daily/weekly), dynamic filtering for current-day tasks, and daily progress tracking with a visual progress bar.
- Ensured data persistence across browser sessions using localStorage and built a fully responsive layout with Tailwind CSS and shadcn/ui.
- Technologies: React, TypeScript, Vite, Tailwind CSS, shadcn/ui.

Personal Portfolio Website   **Github | Live**
- Designed and developed a personal portfolio website to showcase my skills and projects.
- Built with Next.js and TypeScript for optimal performance (SSR/SSG) and a fully responsive user experience.
- Implemented engaging and smooth animations using Framer Motion and ensured form validation with React Hook Form.
- Technologies: Next.js, TypeScript, Tailwind CSS, Framer Motion, Radix UI, React Hook Form.

PROFESSIONAL SKILL

- React
- Next.js
- RWD
- Git
- SCSS
- Tailwind Css
- TypeScript
